

## DePuy Spine Content Syndication

The listed articles cover the patient education topics available from DePuy Spine that you can include on your website. These are the same high-quality educational materials that can be found at [www.AllAboutBackPain.com](http://www.AllAboutBackPain.com).

To request educational materials for any of these topics, follow these steps:

1. Indicate the practice name, your name, and additional contact information (i.e., e-mail address, website address, telephone number, fax number).
2. Review the list of orthopaedic conditions and treatment options about which you may be interested in providing information to your patients.
  - i. You may elect to utilize the **Short-Form Articles** and/or the **Unabbreviated Articles** based on your patient demographic or specific website needs.
3. Check the boxes alongside the topics that best represent your practice, in the column where indicated.
4. When finished, print the form, sign, and fax it to **508.374.6020**.

You will have the ability to include additional/updated materials as they become available.
